DISCOVER CURITIBA, the Sustainable City

A city that unites nature, urban agriculture, social innovation and quality of life.

Curitiba is a benchmark in Brazil when it comes to well-being, organization and environmental awareness. Voted the smartest and most connected city in the country in 2022, it impresses with its green areas, urban planning and sustainability initiatives that serve as an example to the world.

Since the 1960s, Curitiba has been investing in creative solutions to improve people's lives - a commitment reflected in its more than 68m² of green area per inhabitant, compared to the recommended minimum of just 12 m².

Experience Eko Ways and discover a different side of the capital: inspiring destinations, parks seamlessly integrated into the city, and a lifestyle in harmony with nature.

EXPERIENCE The Atlantic Forest Great Reserve

Surrounding Curitiba, it is the largest continuous area of Atlantic Forest in Brazil

There are 2.7 million hectares of living forest, mountains, waterfalls and traditional communities, a place where you can walk along scenic trails, listen to the stories of those who take care of the land and experience moments of pause and reconnection with essential nature.

With Ekoways, your journey takes on a deeper meaning: more than visiting, it's about getting involved, learning and being inspired by every experience.

With Ekoways Turismo you

Practice truly conscious tourism

- More than just "sustainable," Ekoways' regenerative concept creates experiences that strengthen ecosystems, stimulate the local economy, and inspire changes in habits.

Enjoy transformative and multisensory experiences.

- Forest bathing, yoga at the waterfall, caíçara experiences, get to know endemic species and special plants. The activities combine contemplation, movement, and self-knowledge.

Authentic cultural immersion

- Participate in local life: immerse yourself in ancestral knowledge and ways of life that value community and well-being.

Specialized guidance and facilitation

- The journeys are led by trilingual professionals trained in nature conservation, environmental education, and regenerative tourism. This ensures safety, rich information about biodiversity, and minimal impact practices.

Measurable positive impact

- Ekoways implements zero waste, composting, circular economy, and Conservation Unit support initiatives. Each trip helps maintain trails, strengthen communities, and conserve the largest continuous area of Atlantic Forest in Brazil.

Flexibility and customization

- The routes and activities can be tailored for families, groups of friends, or companies, with different levels of hiking, private transportation, and complete logistics.
